Non-Navajo hunters using illegal guides or hounds-men who make a kill and subsequently remove the carcass from the Navajo Nation are in violation of both Navajo Nation and federal wildlife laws and will have their hunting privileges revoked. Non-Navajos accompanying big game hunters will be issued a citation for illegal guiding under this provision.

Non-Navajos lion hunters may only be accompanied by Immediate family. Immediate family is defined as spouse, mother, father, son, daughter, brother, sister, grandfather, grandmother. The Department of Fish and Wildlife is implementing a regional quota system for the 2022-2023 lion season. Hunters will be required to call the Department of Fish and Wildlife on each Friday during the lion season to find out if any lion quotas have been met. If a lion quota is met, that will also be publicized on the Department of Fish and Wildlife website, so a hunter has the option of checking the website each Friday. The following are regional quotas: Units 1, 7, 12 and 16 has a quota of 15 lions. Units 2-5 have a quota of 15 lions. Units 6, 8, 9 and 10 has a

quota of 5 lions. Units 13, 14 and 15 have a quota of 4 lions. When a quota for a region is met, the lion hunting in those units will be closed beginning on the Saturday after the information is posted on the Department of Fish and Wildlife website. Once a region is closed, it is illegal to hunt lions in those units.

Mountain Lion Permits sales will end on December 30, 2022. The Department will not accept post-dated mailed applications after December 31, 2022.
